

Alex Nikolic – Director of Dredging

Hello Newport. My name is Alex Nikolic aka The Weedman and as your new Dredger Director I look forward to continuing with successes and lessons learned working with previous director Michael Rushton and our exceptional dredger team. I am retired after working in Maintenance and Production Management for 29 years with the Ford Motor Company at the Oakville Assembly Complex. Our dredging team has proven resilient, adaptive, flexible and totally engaged and pretty good too. I am certain we all look forward to another successful boating season in 2022.
