

Norm Wong

I have been boating for over 40 years. Starting with my first sail boat in the late 80's and changing over to power in the last several years. I had always kept my boats in marinas which was adequate for my needs and allowed me to enjoy my love of the water. Several years ago, Janet and I joined Newport Yacht Club and since then we experienced something completely different from when we used regular marinas. We found that we actually had a lot of fun. We were amazed by the camaraderie of the members and their commitment to the success of the club.

Over the past several years we have come to recognize that a club of this size cannot run itself. It takes a lot of work in organizing, planning and managing. After watching other members selflessly volunteering their time and effort to support the successful operation of our club, I feel that it is time for me to step up and help out. I look forward to taking on the task.

In my career I have had many jobs and held many positions. I have owned and operated my own business' and helped manage other companies. My background includes aircraft maintenance engineering, customs brokerage, traffic analyst & logistics, construction & renovation, business management & consulting and sales & marketing.

Knowing the amount of work involved in this position I welcome any and all the help I can get. So don't be afraid to volunteer and do whatever you can.

See you on the docks (or at the next event).
