

Kevin Bradley

Director On Water Activities

My wife Julie and I joined Newport in 2020, coming over from the Bronte. I have been boating most of my life, primarily as a sportfisherman. We have the luxury of owning a boat that we can cruise and still sport fish, so cruising has become a new boating passion. I am semi-retired from a sales management and marketing career in the hardware and building supply channel. I am very involved with the Halton Region Salmon & Trout Association where I was secretary on the executive board up until 2023 and now as a director-at-large. I chair the committee for the annual HRSTA Bronte Classic Salmon fishing tournament held annually in September, and in partnership with Jeff Hansford, organize and run our very own Newport Shoot-Out Salmon Derby held in June. I'm an avid competitive tournament fisherman where I travel to ports all over Lake Ontario. I have the fortune to sit on the newly formed Newport Clean Marine Committee and feel this will greatly enhance our club and benefit the environment and aquatic habitat we are so fortunate to have access to.

I look forward to my new role as Director of On Water Activities. Having recently started cruising and enjoying other marinas and yacht clubs, I have a keen interest in the reciprocal aspect of this director role. I hope that I can bring value to our members and the Newport community. Please feel free to reach out if I can help in any way.
